I. Introduction

Are you a store owner with a Prestashop online store? If you are, then you must definitely be aware that the features of your website are quite an important factor for your sales. The more the features and user friendliness in your site, the higher the sales of your products. We introduce a module, **Prestashop manufacturer carousel slider** module which displays a block of manufacturer or brand logos in your website.

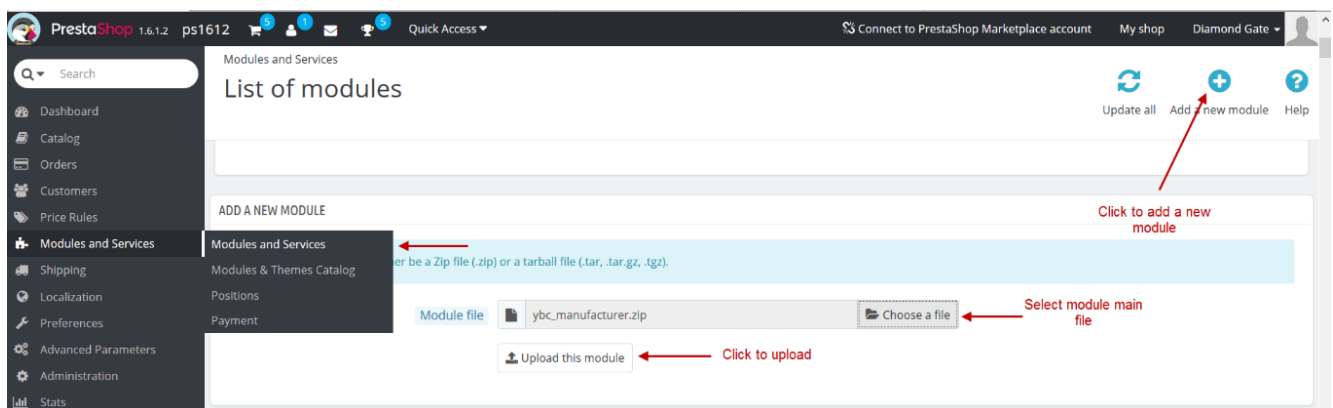

The logos are displayed in the form of a carousel slider to which you can add any number of logos to be displayed when the slider is scrolled. Clicking on a logo will take the customer to the manufacturer listings page where all the products of the specific manufacturer are shown.

The module has a responsive design and is created using the owlcarousel slider. Since the owlcarousel is the best slider available in the market, displaying of our slider on all web browsers and devices is guaranteed. Download and install this module for free and add another interesting feature for your store.

II. Installation

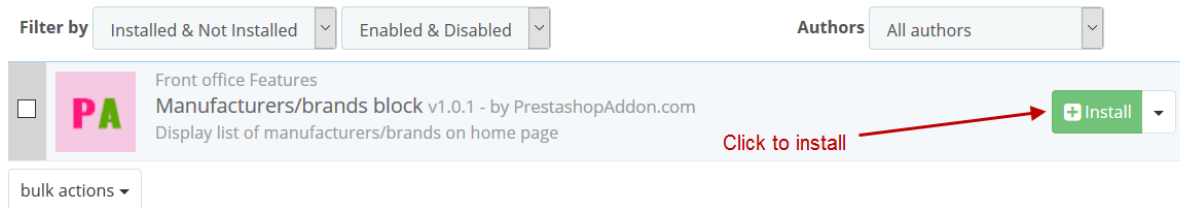

1. Upload the module to server

- Go to “*Modules and services*”
- Click “*Add a new module*”
- Choose module main file (*ybc_manufacturer.zip*)
- Click “*Upload this module*” to upload the module

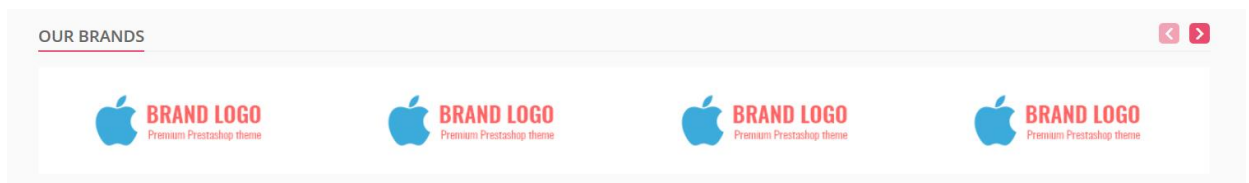

2. Install the module

Just click “Install” to install the module

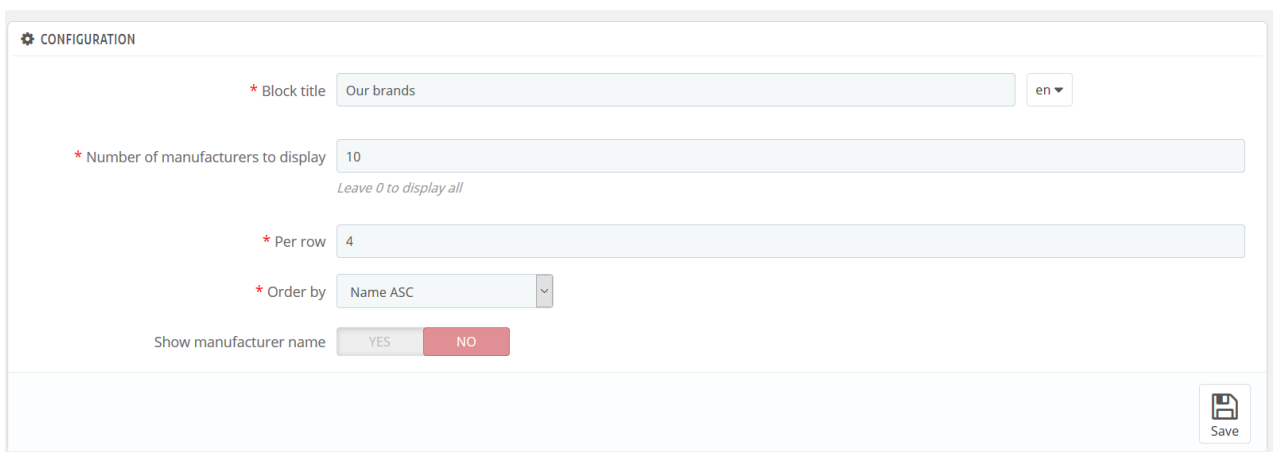

III. Check the module

After step 1 and 2 is done, you have completed the installation of the module. Now when you navigate to the home page of your website, you will be able to see a new manufacturer slider block.

IV. Backend settings

At the backend of the module, there are several options available for you to make customization to the manufacturer slider block on the frontend.

V. Thank you

Thank you very much for installing this module to your website. If you need any support, don't hesitate to contact us.
